Modern High School In

TEACHERS

Mr O.P. Roy

Mr Ghosh

Our music teachers are like mentors, always there to lend a hand and keep us inspired. They patiently guide us through instrument lessons, helping us unlock our potential. Their advice on song choices is spot-on, pushing us to explore new styles and grow as musicians. They make learning music feel like an exciting adventure.

AUROVILLE ACTIVITY

Visiting the swaram workshop and later on the sound garden was a really unique experience. We see instruments being mass produced all around the world but what makes swaram special is the fact that their instruments are handmade by skilled artisans. First was the showroom which had a display of all kinds of instruments. We were intrigued by an instrument which consisted of a large granite slab with multiple carvings, rubbing the stone with wet hands produced a serene sound. We had the chance of making our own instrument. We were able to recreate the multi step process which went behind making instruments, needless to say it requires a lot of hard work. Alongside the workshop was the sound garden which had numerous instruments on display, Overall we were able to learn a lot while having fun.
